

Your Bank at Your Fingertips

You are cordially invited to join us on **Wednesday, December 4 at 6:00 p.m.** at our Main Office for this free event.

Banking may not be the most exciting thing to do with your phone or computer, but you might be surprised how convenient and secure some applications can make your life. In just a few minutes, we can show you how current bank-related technology can:

- save you trips to the bank
- reduce your risk of fraud and identity theft
- help you make purchases more securely
- let you control your debit card from almost anywhere
- give you real-time access to your account information whenever you need it

On December 4, meet Bank employees and other customers, enjoy some light refreshments, and learn how the gadgets you rely on for almost everything can be your very own banking assistant.

STRENGTH. SERVICE. COMMUNITY.

Demos will be held at 6:15 and 7:00 p.m. One-on-one help will be available as well.

We hope to see you here!
