

Introducing a New Look and Navigation for Online and Mobile Banking!

Here are some of the screens and menus you will find in our modern, user-friendly interface.

Desktop Landing Page

Mobile Landing Page

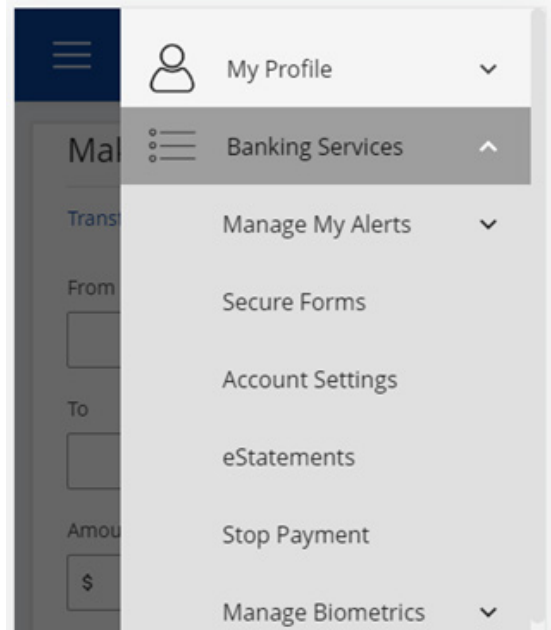

Light Mode

Dark Mode

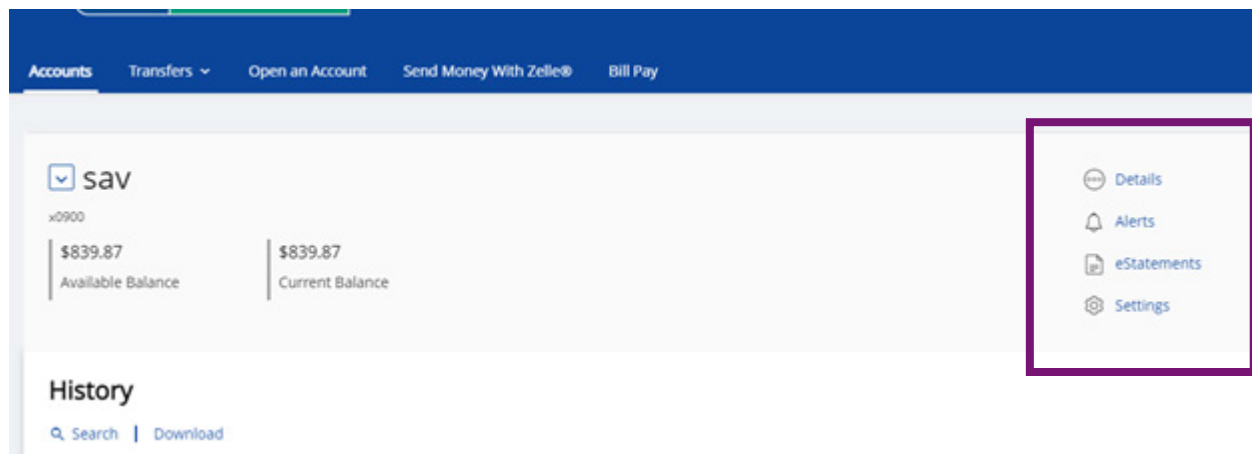

Enjoy a simplified layout and design with larger fonts for easier reading. You also have the option to switch between light and dark modes. Use the avatar on the top right corner to navigate to the My Profile and Banking Services sections.

Use the **Profile Menu** for a variety of tasks, including:

- Adjusting personal and account-related settings
- Enrolling in Fingerprint and Facial recognition login
- Contacting Us
- Switching between light and dark modes

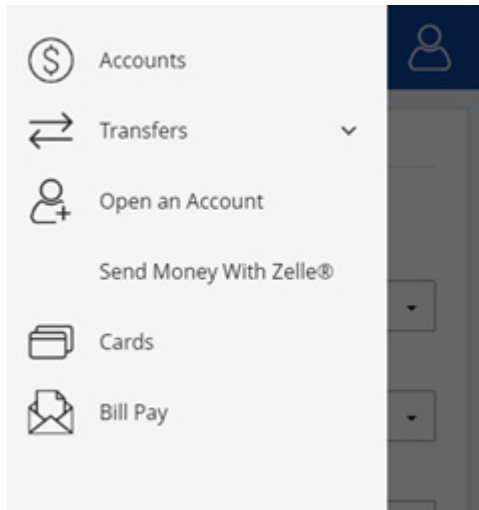

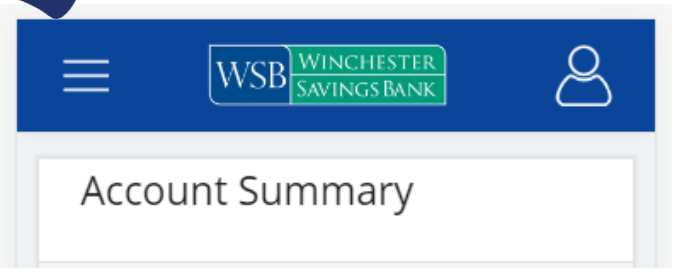

Desktop Accounts Page

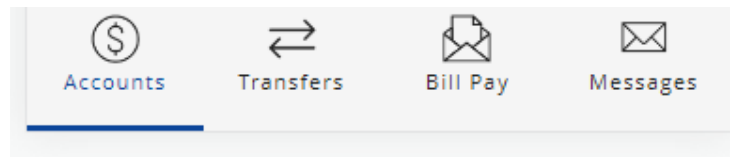

The Accounts Page has an improved design and lets you view account details with just one click on the desired account. You will see that credit items in the History section are in a green font, and the menu within that page (see purple box above) allows access to account details, alerts, eStatements, and more.

On our Mobile app, the **Hamburger Menu** can be used to navigate to various banking functions. Features are just one click away!

A new Navigation Bar at the bottom of the mobile page contains the most frequently-used tabs.

Transfer Activity

The updated **Transfers Menu** lets you easily manage transfers and add new accounts.
